**GM-40-S - 22' OAL**

**GM-40-S WITH  
AC1210 90° ELBOW**

**“L” CONFIGURATION**

**MADE IN CANADA  
WITH NORTH AMERICAN MADE COMPONENTS**

**AVAILABLE IN PROPANE AND  
NATURAL GAS FIRED MODELS**

**PROVEN TO DECREASE FUEL COSTS  
WHILE INCREASING BUILDING COMFORT**

**OVER 40 YEARS OF HANDS ON EXPERIENCE  
DESIGNING AND BUILDING HEATING EQUIPMENT**

**4 YEAR PARTS WARRANTY  
20 YEAR GUARANTEE ON EMITTER TUBES**

**TESTED AND CERTIFIED FOR  
USE IN CANADA AND THE UNITED STATES  
BY INTERTEK ETL**

**Intertek**

**PERMANENTLY SEALED AND LUBRICATED BLOWER**  
Externally mounted for ease of service, complete with 4" outdoor combustion air adapter that allows for complete isolation from indoor air.

**HEAVY GAUGE HIGHLY POLISHED ALUMINIUM REFLECTORS**  
For maximum infrared heat distribution.

**VERSATILE HANGERS**  
Allows for horizontal or angle mounting of units.

**3.5" DIA. SPECIALTY ALLOY EMITTER TUBE**  
Long lasting, corrosion resistant, high temperature coated, high performance tube system. Slip fit 10' sections allow for quick and easy installation with no couplers or clamps.

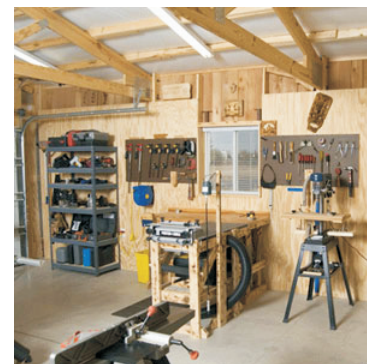

**HOT SURFACE IGNITION**  
Field tested, reliable, and safe hot surface ignition system that lights even in the dampest of conditions. Sight glass for visual ignition confirmation.

**FACTORY BUILT TO YOUR SPECIFICATIONS**  
Ready to accept 24V or 120V controls out of the box. Built for NG or LP as required - no field conversions are necessary.

**ENCLOSED CLAMHELL STYLE CONTROL HOUSING**  
Protects heater controls, and allows for quick and easy access.

**NORTH AMERICAN MADE CONTROLS**  
High quality North American made controls with hot surface ignition, continual flame sensing, combustion air, and exhaust blockage monitoring, complete with quick diagnostic features.

## GARAGES - WOODWORKING - MECHANIC SHOPS - MAN CAVES - OUT BUILDINGS

**Testimony**  
"I was meticulous in monitoring the heat in my workshop with an infrared thermometer to test the effectiveness of the heater, and I can honestly say **I was amazed at what I found**. The walls, concrete floor, and even items inside my shop cabinets remained at 65F regardless of the temperature outside. Checking the gas bill, **I noticed no appreciable increase in gas consumption over last year's bill. I wish I had done this years ago.**"

**- GORD GRAFF** <sup>CANADIAN</sup> **Home workshop**

MODEL	OAL	WIDTH	INPUT	CLEARANCES
